

Yasaman Kheradmand

Product Designer & HCI Researcher

Outcome-driven product and UX designer with 5+ years of experience designing and developing data-driven digital products across SaaS, FinTech, travel & tourism, HR technology, e-commerce, product delivery, and services domains. Strong background in software engineering with expertise in turning complexity into clarity, UX measurement, information architecture, usability evaluation, and AI-assisted interface design. Research interests span human-computer interaction, UX metrics, cognitive load reduction, and applying machine learning to user-facing systems.

EXPERIENCE

Snapp! – Product Designer, Finance Vertical

Tehran, Iran — Apr. 2025 – Present

- Delivered 10+ Finance-vertical projects (cash-out, wallet top-up, tipping, fraud handling, payments, card management).
- Redesigned transaction history (income, deductions, bonuses, refunds) — cut finance support tickets **22%**.
- Clarified fraud-flag UX and microcopy — cut repeated disputes **18%** and raised comprehension **15%**.

Zitel – Product Designer

Tehran, Iran — Jan. 2025 – Apr. 2025

- Led end-to-end website redesign (landing, signup, plan comparison, ordering) — improved usability and conversion.
- Built and maintained a custom design system for consistent, responsive designer-developer handoff.
- Ran Microsoft Clarity analysis and A/B tests to fix signup-flow friction and reduce bounce rates.

Pexelle – Product Designer

New Zealand (Remote) — Apr. 2024 – Aug. 2024

- Redesigned onboarding and credential-verification flows — lifted premium conversions and user satisfaction.
- Cut submission errors sharply through better form design and inline validation.

Digikala – Product Designer, HR Vertical

Tehran, Iran — Aug. 2022 – Mar. 2024

Middle East's largest e-commerce platform; Digital HR squad serving 6,000+ users.

- **Kudos Club:** raised ~\$50,000 in six months (B2B); improved task success via IA redesign, card sorting, and tree testing.
- **Talent Management:** lifted conversion, sped up OKR workflows, and cut support costs through clearer self-service design.
- Built and owned a scalable web/mobile design system (tokens, components, patterns, handoff docs).

Paradigm Creative Communications Agency – Product Designer

Canada (Remote) — Aug. 2021 – Jan. 2022

- Led the international relaunch of Inverse School (Iran's first specialized digital-arts school); improved task-success rate and increased course sales and daily active users.

Imofix – UI/UX Designer

Berne, Switzerland (Remote) — May 2021 – Nov. 2021

- Ran user research on European preferences for a home-services marketplace — wireframes through UI, prototyping, and handoff.

Freelance – UI/UX Designer

Tehran, Iran — Oct. 2019 – Aug. 2021

- Delivered scalable design systems, improved user workflows, and tailored solutions for domestic and international clients.

Sepehr Group (Servisan) – Front-End Developer & UI Designer

Khuzestan, Iran — May 2019 – Sep. 2019

- Contributed UI design, user research, usability testing, and front-end development; the Servisan home-services app reached **200,000+ installs** in its first six months.

Irantableegh – Front-End Developer

Tehran, Iran — May 2018 – Apr. 2019

- Built responsive websites, prototypes, and user interfaces with HTML, CSS, and React for advertising agencies and online stores.

PUBLICATIONS AND RESEARCH

Yasaman Kheradmand, Dr. Hadi Saboohi, Dr. Azam Bastian-Fard, “*Improving Spam Detection Accuracy for User Account Security in Social Networks*”, M.Sc. Thesis, Islamic Azad University, Science and Research Branch, 2021. [Thesis GPA: 4.0/4.0]

SKILLS

HCI & UX Research: Usability testing, card sorting, tree testing, IA evaluation, A/B testing, UX measurement & metrics, analytics, accessibility (WCAG), interaction & emotional design, storyboarding, wireframing, prototyping

Programming: Python (Pandas, NumPy, PyTorch, TensorFlow, scikit-learn), JavaScript, HTML5, CSS3, React, PHP

Design Tools: Figma, FigJam, Adobe Photoshop, Adobe Illustrator, Hotjar, Microsoft Clarity, Principle

Concepts: Human–computer interaction, cognitive load, design thinking, product strategy, AI-powered feature design, design-system management, UX documentation, data-driven decisions

ML & NLP: LSTM networks, TF-IDF, text classification, supervised learning, model evaluation

Other Tools: Git, Google Colab, Jira, Trello, Confluence, VS Code, ChatGPT, Claude, Figma AI

EDUCATION

Islamic Azad University, Science and Research Branch

Tehran, Iran — 2019 – 2021

M.Sc. in SOFTWARE ENGINEERING, *GPA: 3.61/4.0 (Thesis: 4.0/4.0)*

Islamic Azad University

Iran — 2014 – 2018

B.Sc. in COMPUTER ENGINEERING, *GPA: 3.61/4.0* **Ranked top 3** in cohort (2018)

CERTIFICATIONS AND TRAINING

Product Management for AI & Data Science — 365 Data Science, 2024

Data Cleaning and Preprocessing with Pandas — 365 Data Science, 2024

Product Strategy Micro-Certification (PSC)[™] — Product School, 2023

User Experience Design (80 h) — Amanj Academy, 2021 • **User Interface Design** — Designwich School, 2020

LANGUAGES

English — Professional working proficiency

Persian (Farsi) — Native
